

# INSTARMAC®

Instarmac Group plc is a multi award-winning market leading company, a specialist in the manufacture and distribution of cement, bitumen and resin based products to the world market for over 30 years. **Having built a solid reputation based on the research, development and manufacture of innovative products for use in highway maintenance, they are pleased to announce their strategic partnership with Structural Science**

**Composites** – manufacturers of a unique range of very light and very strong composite covers with composite frames that meet all the requirements for installation in road and pedestrian areas.

Instarmac are committed to delivering high specification, rapid strength, fast-track products and systems to ensure high standards of quality and resilience. They offer everyone expert customer service, technical advice, site support, comprehensive bespoke training and RIBA accredited CPD seminars.

Innovation, Research and Development are stimulated by the relationships with their customers and partners, leading to the perfect synergy between themselves and SSC Ltd.

Instarmac's ULTRACRETE brand offers a range of highway maintenance products and systems for all road and carriageway repair and refurbishment needs. Most renowned for their HAPAS approved cold lay asphalt concretes (macadam), **Instant Road Repair** and **Permanent Pothole Repair**, their market-leading solutions solve the problems of potholes, cracks and refurbishment across the UK and indeed, worldwide.

The ULTRACRETE brand boasts a full BBA/HAPAS approved Ironwork Reinstatement System for the failed and collapsed manholes – SSC Ltd's covers make the perfect addition to such a system. The products ease traffic congestion and allow the road to be opened in 1 hour.

A range of rapid set mortars/concretes, anti-skid coatings and ancillaries, resin mortars, line marking paints and recyclable spill absorbent is also available.

Instarmac is also the parent to the ULTRASCAPE, ULTRA TILE and ULTRA FLOOR brands – a BS 7533 compliant mortar paving system for urban regeneration schemes, a range of tile adhesives and coloured grouts for commercial and domestic applications, and a portfolio of commercial floor levelling compounds, patch repair and DPM's respectively.

For further information about Instarmac, and in particular, their highway maintenance solutions, contact them on **+44(0)1827 871871**, email **ultracrete@instarmac.co.uk** or visit **www.ultracrete.co.uk**.
